Phil It Up Day

On Thursday, September 17, 2026, over 85 C-4 Analytics employees—including the company's entire Michigan office—joined together for Phil-It-Up Day, an annual day of service created in memory of C-4 Analytics colleague and friend Phil Murphy.

This year, Phil-It-Up Day brought C-4 Analytics volunteers to the Boys & Girls Club of Metro North's Hall Memorial Pool and Wakefield Boating, where they dedicated their time to preparing the properties and equipment for the winter. The day culminated in an afternoon carnival for Stoneham Clubhouse members, giving the volunteers and kids a chance to have fun together. The carnival featured games, activities, facepainting and even C-4 employees volunteering to take turns in the dunk tank.

McSmiles Campaign

In late September, King & Wallin Family Restaurants signed on to support BGCMN with the McSmiles For Kids campaign. We asked guests to take a photo with Ronald McDonald or another nostalgic restaurant display, and share it on social media using #McSmilesForKids while tagging BGC Metro North and King & Wallin. Thanks to the generosity of Lindsay Wallin and her team, we were able to raise $10,000!

Stoneham Town Day

The 42nd Annual Stoneham Town Day took place on Saturday, September 19th on the town common. Paola, Kenny and Becca, three of our amazing Stoneham Teen Center staff, manned the BGCMN tent, sold raffle tickets, colored pages with kids, gave out temporary tattoos and enjoyed a beautiful day collecting donations.

First Concert of the School Year

On Friday, September 25th the Stoneham Teen Center held it's first concert performance of the new school year. The performers played to a full house, led by Staff member Brady, and entertained their friends with some solid tunes. Don't miss the next showcase on October 22nd!

Shark Tank with StonehamBank

Stoneham Teen Center members participated in session one of a four-session Teen Shark Tank Program with StonehamBank covering idea development, finances, branding, marketing, and pitching. During the first meeting, members came up with business ideas and how to get started with that idea. Stay tuned for session two!

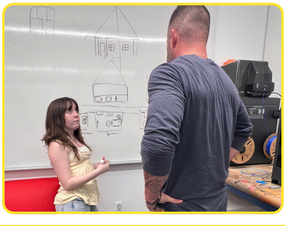

AMCON Visits Saugus Teen Center

AMCON, a construction company out of Peabody, has been a great supporter of Boys & Girls Club of Metro North. Their latest contribution is a series of on hands learning in our Saugus Teen Center. The first session members learned about construction, the role that concrete plays in that and loads of interesting inside knowledge.
